- Our platform is developed with payment gateways in USDT, which makes it easier to manage payments and deposits.

NANOTECH

SOFTWARE

We are a sports trading consultancy, based on software that analyses the statistics and probabilities of each match.

- 23 technical analysis variables.
- 12 live fundamental analysis variables.
- 3 mathematical variables.

NANOTECH

SOFTWARE

Nanofinance or nanoinvesting is the financial art of trading small capital in high profit markets, obtaining more profits than losses for each operation carried out. The number of entries for each trade is a minimum of 100 entries, in high value installments, thus reducing risk and generating substantial profits for each trade.
